

Dear Jim,

How do we thank you enough for all your help with building our house? I think back to all times you stopped by location and how you always gave 110%. I know building a house is a big commitment to be part of. The quality of work you, your son and your team of craftsmen has done is beyond our expectations.

Last Christmas I had seventy guests in my home. The kitchen you designed made it feel like I had only seven guests. Every detail that you put into the kitchen really made all the difference.

I still can't say enough about you as a builder and as a person. Your high standards and knowledge can not compare to anyone else. This letter can not do justice to all you have done for us that made our house a beautiful home.

Sincerely,

Guy and Debbie Lombardi
